Keep Kids Safe Heading Back To School

With every school year comes the opportunity for children to interact, socialize, learn and have fun. With more interaction, however, comes more opportunity for transmission of COVID-19. To keep kids from getting really sick from COVID-19, it's important to vaccinate children 6 months and older.

Vaccinated children help keep our elders, families and community better protected against COVID-19.

To learn more about vaccines for children, please visit [cdc.gov/coronavirus](https://www.cdc.gov/coronavirus)

More Safety Tips

If you're sick, stay home. Get tested to see if you have COVID-19. Testing and following CDC guidelines helps prevent others from getting sick. Visit
